

THAILAND**National Research Council of Thailand (NRCT)**

NRCT participates in the following topics of the 9th JFS Call for Research Proposals:

General area: **Climate Change Adaptation & Local Resilience**

Topics: **Waste water treatment and reuse (industrial & municipal)**

- Thai applicants are advised to read the call text, the national guidance/regulation purposes via website <https://nriis.go.th> (*in Thai only*)

Eligibility and funding modalities

- Eligible for Thai nationality only. The applicants must be researchers and/or university professors/instructors who work in research institute or university, only legal entities established in Thailand, and are competent in conducting research with international partners.
- NRCT can support a maximum of 2 applications. The total budget for the Thai researcher over a full 3-year period is up to 4,500,000 THB per project. The budget for a project may differ each year, depending on the content of activities and the exchange rate between Thai Baht and Euro may vary from time to time.

Eligible cost categories

List and specify the cost categories and specific regulations that apply. Costs categories could be

- Personnel costs: honoraria for Thai principal investigators and invited expertise, salaries of the temporary staff, Bachelor, Master, PhD students, who are hired for the research.
- Mobility / travel flight: accommodation, visas, vaccinations, local transport, daily allowances etc. of the project members registered in the project plan.
- Equipment and Consumables: costs of research equipment, spare parts, prototypes.
- Workshops / meetings: costs for organizing meetings in Thailand including rental costs for the venue, food & beverage (excluding alcohol) costs and other costs which are deemed to be necessary for organizing the event. Expenses for creating software, renting or leasing equipment, transporting equipment, etc.
- Other Direct Cost: publications, etc.
- Overheads cost shall not be more than 10% of direct costs excluding personnel and Equipment costs.

Submission in addition to PT Outline submission

- Each proponent that requests funding from a JFS funder must carefully read the respective National Regulations and contact the National Focal Point for an informal eligibility pre-check before submission.
- Before submission, it is advisable that each partner also reads the National Regulations of the other partners in the consortium, to understand and fit-in to the criteria specified in the partners' National Regulations.
- After the project get selected from this Joint Research Projects, Thai principal investigators must submit the proposal format via NRIIS system in accordance with NRCT regulation
